Our Heritage

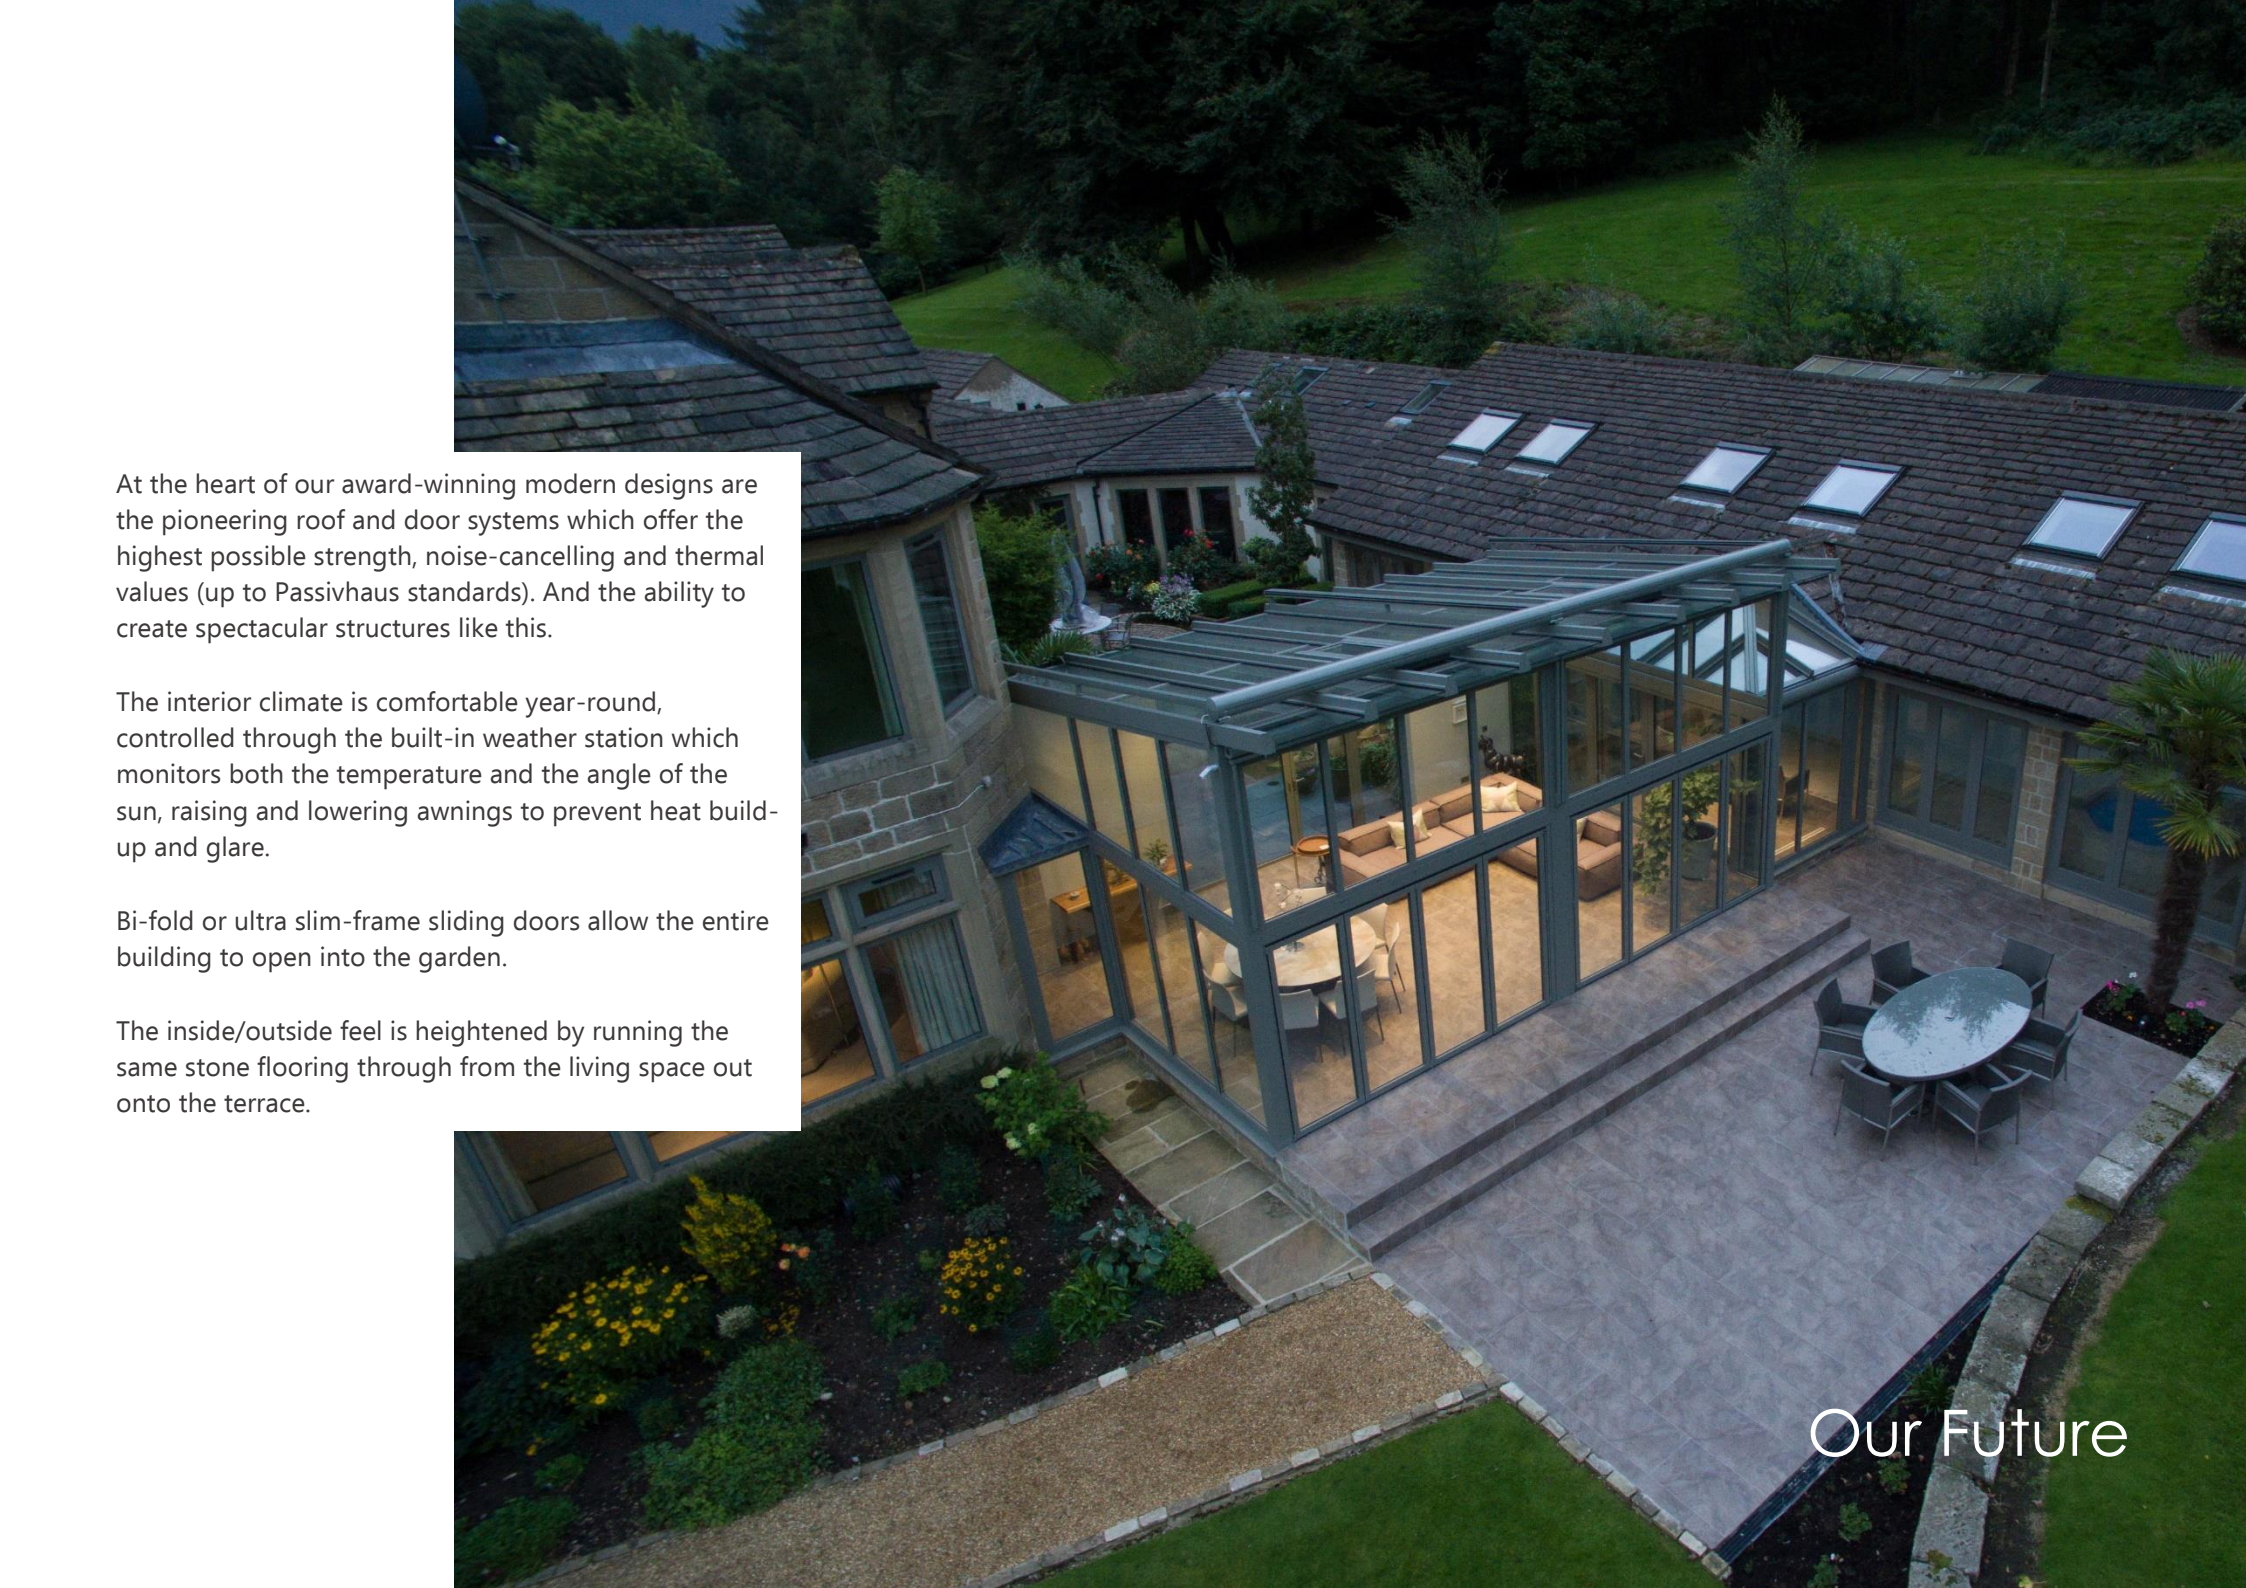

A lineage going back two generations, and at the start of the Journey Oak Leaf Conservatories in York was created.

An award-winning heritage based upon understanding accurate period design and artisanship in traditional conservatories including restoration of Broughton Hall at Skipton and Gold Medal Winners at Chelsea.

A reputation for delivering unique designs and creating very special buildings and structures.

A new journey taking this expertise and knowledge to explore the modern.

And now Glass House Architecture is unique in the UK, that it delivers both the traditional and the modern under one roof.

An aerial photograph of a modern residential building. The house features a traditional stone exterior on the left and a large, multi-story glass extension on the right. The glass extension has a flat roof with several skylights. Inside the glass extension, a living area with a brown sofa and a dining area with a round table and chairs are visible. The house is surrounded by a lush green lawn and trees. A paved terrace with a round table and chairs is adjacent to the glass extension. The overall scene is captured from a high angle, showing the integration of the modern glass structure with the existing stone building and the surrounding garden.

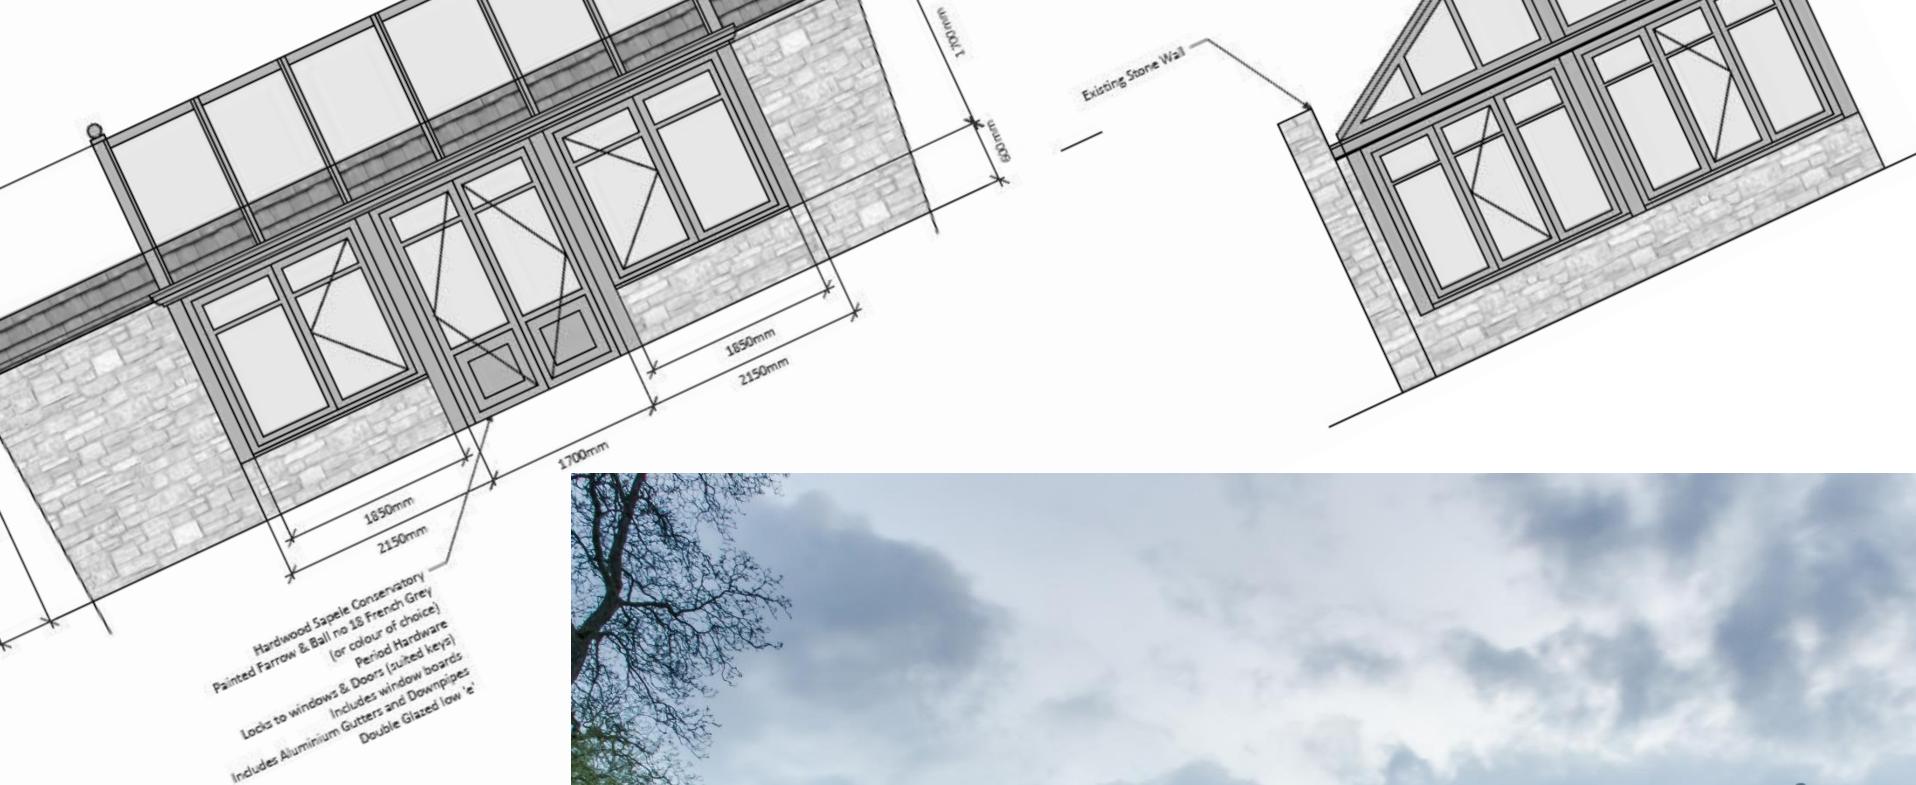

At the heart of our award-winning modern designs are the pioneering roof and door systems which offer the highest possible strength, noise-cancelling and thermal values (up to Passivhaus standards). And the ability to create spectacular structures like this.

The interior climate is comfortable year-round, controlled through the built-in weather station which monitors both the temperature and the angle of the sun, raising and lowering awnings to prevent heat build-up and glare.

Bi-fold or ultra slim-frame sliding doors allow the entire building to open into the garden.

The inside/outside feel is heightened by running the same stone flooring through from the living space out onto the terrace.

Our Future

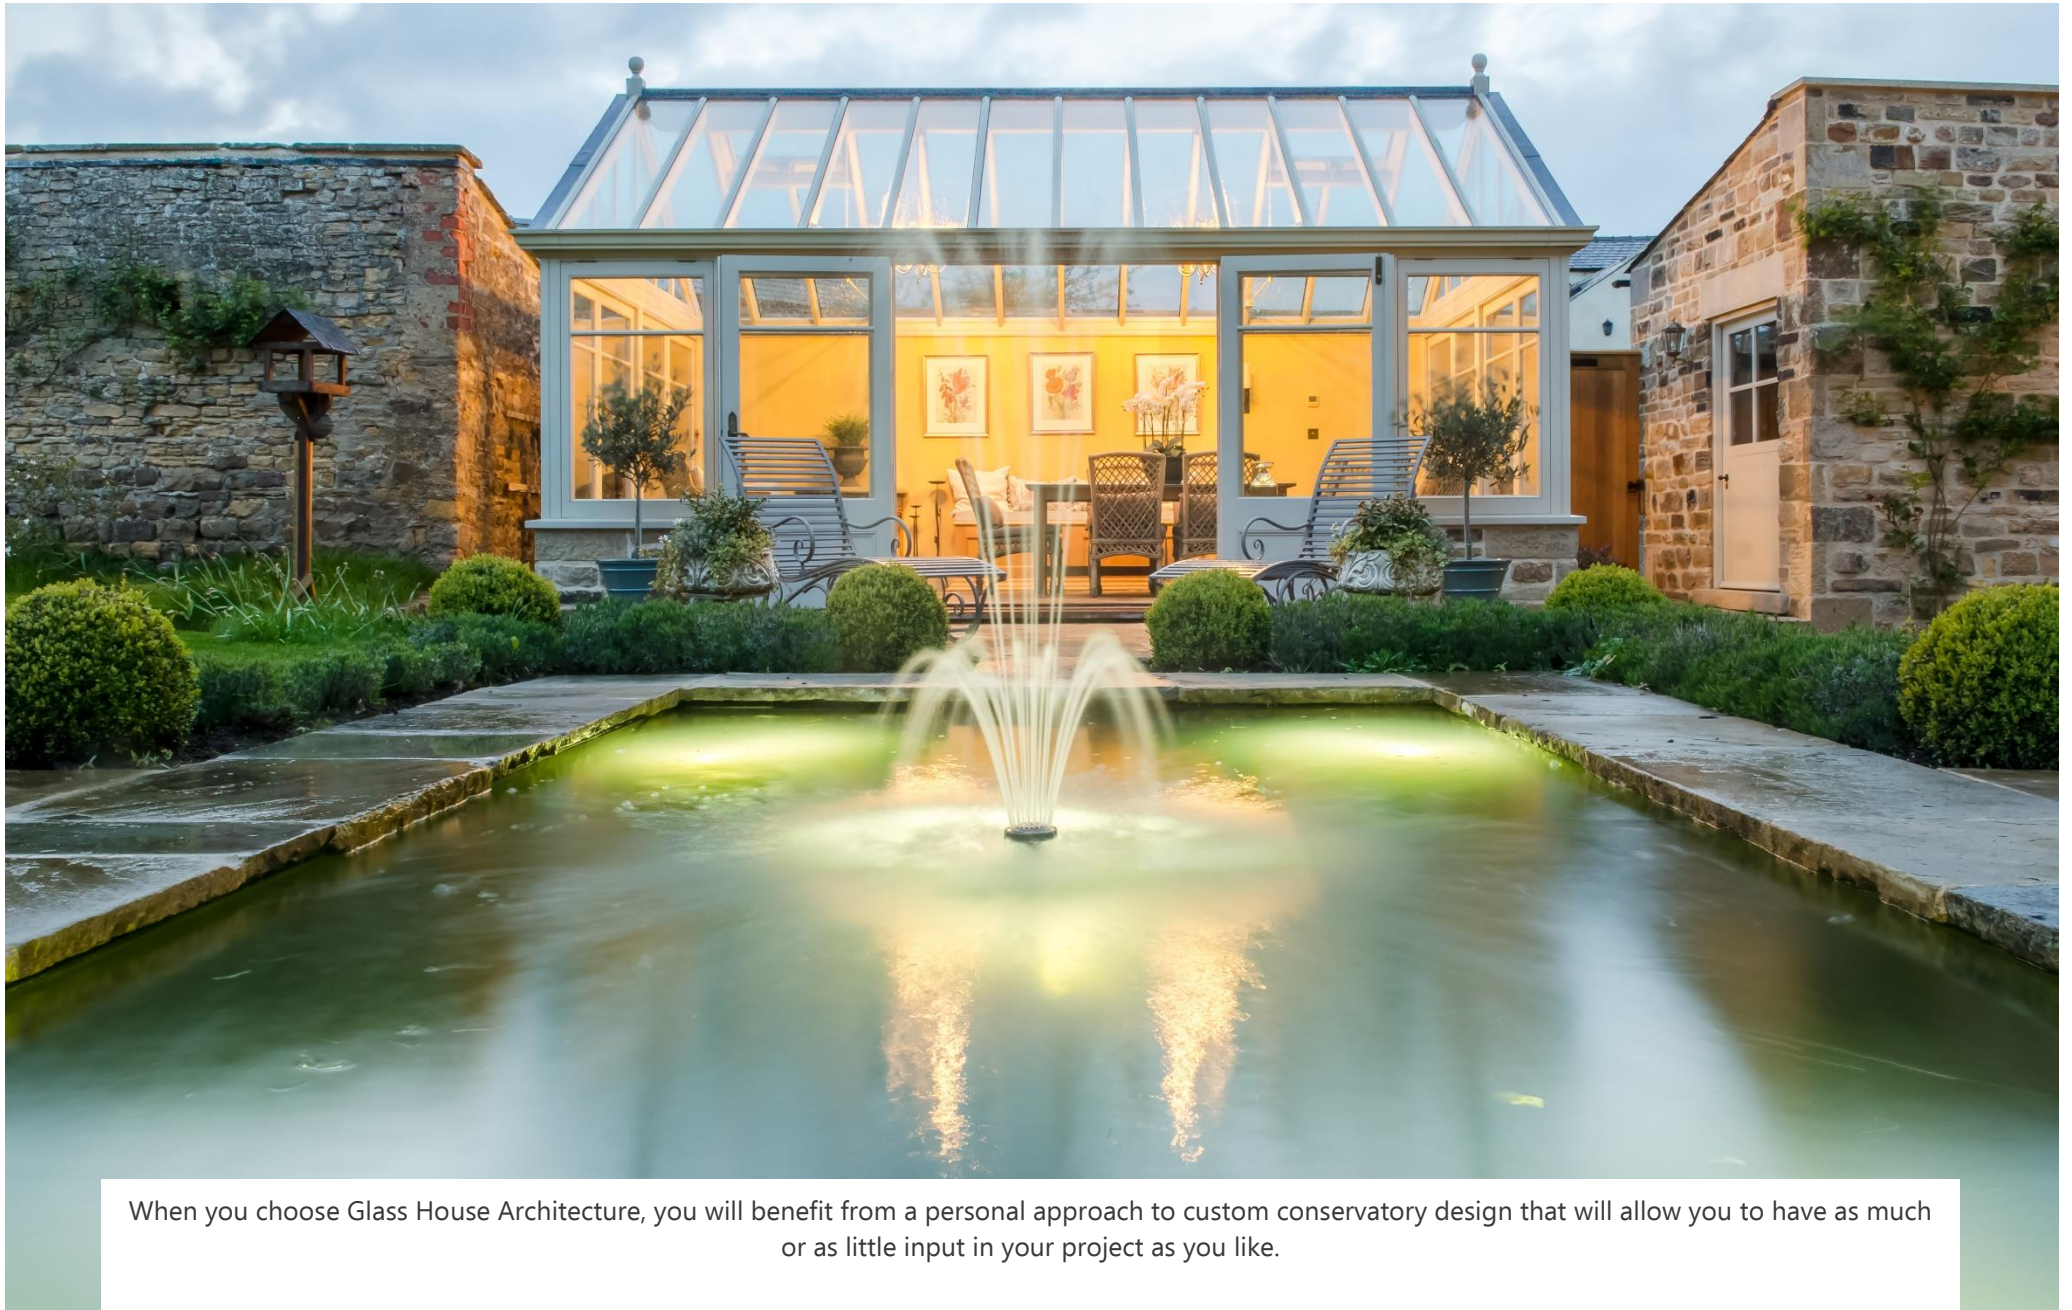

A service led by design

Our expert designers will prepare a detailed design, including the latest in photorealistic imagery and present to you at home or at one of our showrooms.

We are sure you will be 'wowed' by what is achievable and the level of work that we put in to realise your dream. We do this for one simple reason: to show you exactly what your investment will bring to your home.

It does not end there, if you require planning our in-house consultant will take the plans through the application, gaining listed buildings or conservation consent and taking the pain out of the process.

When you choose Glass House Architecture, you will benefit from a personal approach to custom conservatory design that will allow you to have as much or as little input in your project as you like.

You will be given the opportunity to revise the structure's design at every stage of the creative process and will experience first-hand the passion and commitment of our designers and craftsmen as they work closely with you to turn your vision into startling reality.

WINTER GARDENS

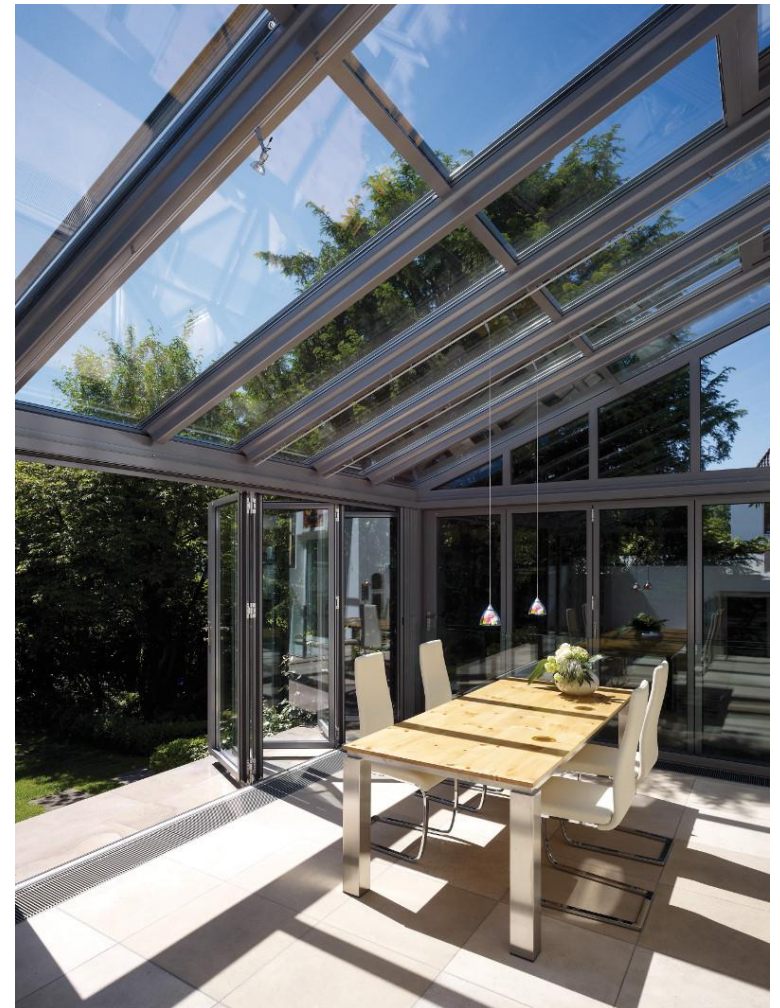

A Winter Garden is the ultimate modern conservatory. The latest technology in glass and aluminium with high thermal performance ensures you have a light filled space, that is both cosy in winter and cool during the hottest summer months.

A Winter Garden works best when you want to open up your living space and connect to your garden. The possibilities are endless, and our designers can help you create a very special extension that befits your home and the way you want to live.

A Spacious Winter Garden
allows light to flood into your
home

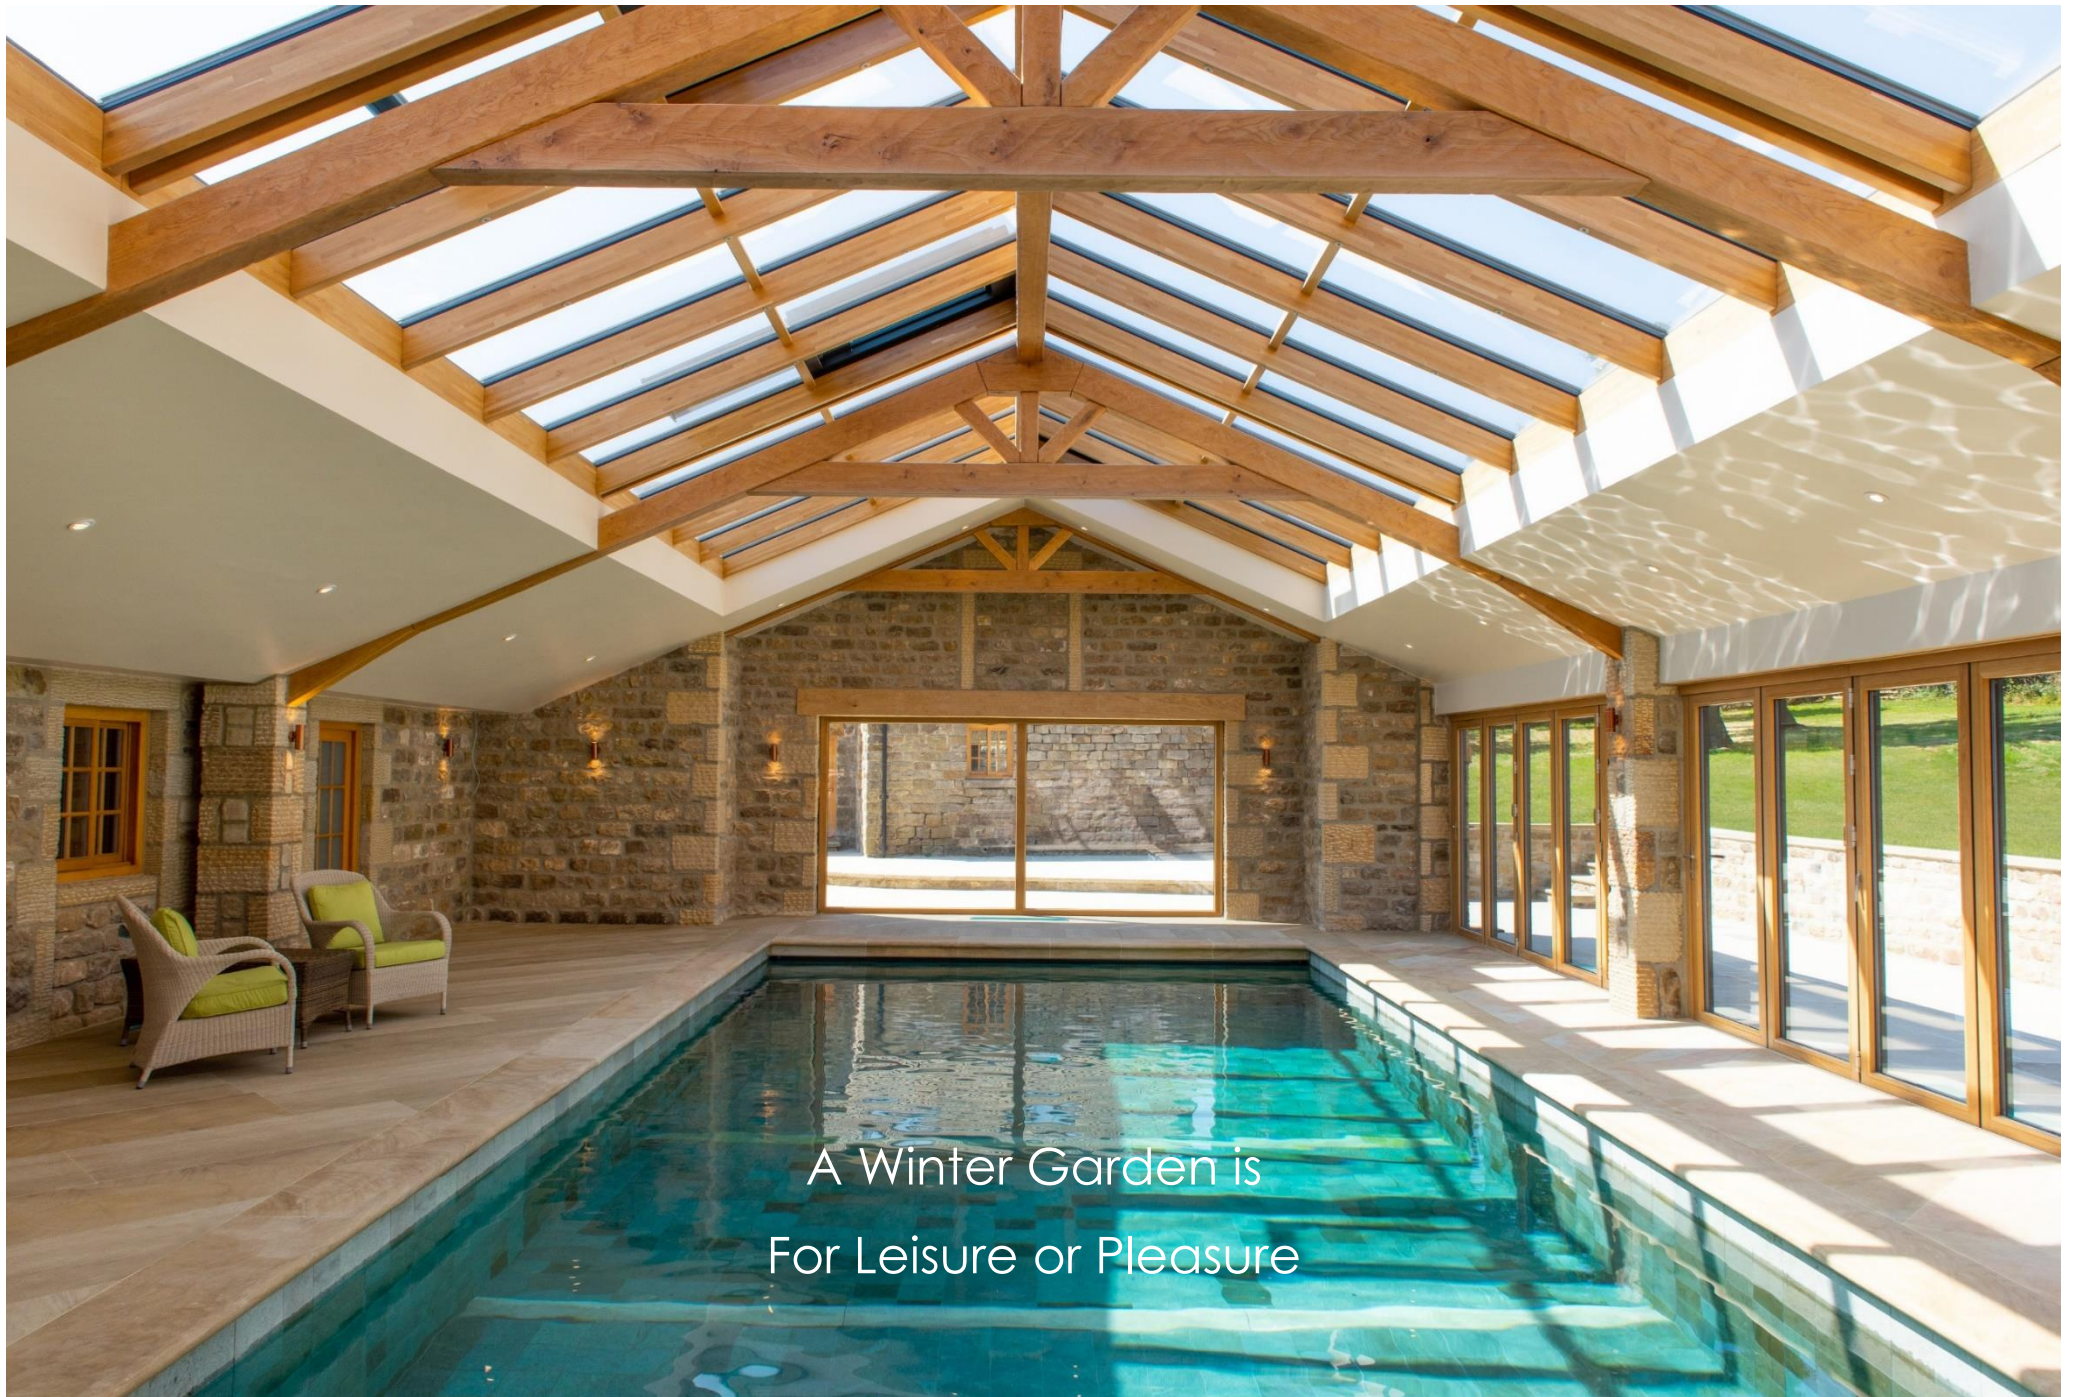

The Winter Garden
A room for all seasons

365 Days a year, day or night, a stunning Winter Garden can enhance your living area. Supreme comfort and style to benefit the best of homes.

Creating a large extension for open plan living, including kitchen, sitting, and dining area improves the way we live our lives. The corner of this town house was completely removed and transformed with an 'L' Shaped Wintergarden.

A Winter Garden is
For Leisure or Pleasure

VERANDAS and GLASS ROOMS

Take the chill out of the Autumn air, enjoy
a Spring evening outdoors in a frameless
all Glass Veranda

The glass doors not only leave you to enjoy uninterrupted views of the outdoors but can also slide away to leave a floating roof and a seamless integration with the outside world.

With the aid of under floor heating beneath the beautiful marble paving, high level heating strips which frame the back wall, lighting, and blinds, that can all be controlled remotely at the touch of a button; this room truly can be enjoyed all year round.

The Veranda Glass Room - where glass doors simply slide away like curtains

Enhance your veranda with a host of built-in options

- Led lighting that changes colour to create a mood
- InfraRed heating to keep you warm on a chilly Autumn or even Winter evening
- Roof awning to provide shade
- Roller blinds to provide privacy

Enjoy your corner of
the sky under the
controlled shade of
a modern pergola

Changing the mood at your fingertips

With lighting options that change the atmosphere at night, integrated speakers that connect via Bluetooth to your tablet or smart phone it means you can sit back and just listen or create a party mood.

And if the impending clouds threaten to spoil your evening at the click of a button you can simply close the louvered blades weather tight, pull down integrated blinds or slide across invisible frame glass panels

A Pergola Garden Room
creates a wonderful
entertaining space

A Pergola is the latest addition to the home, creating a perfect outdoor entertaining space. Linear features pure simple lines, the rectangular profiles with excellent structural characteristics that maintain elegance and comfort all year round.

With rotating louvred fins or fabric covers, you can open as much as you like to let the sun in or provide shade, fully close weathertight, slide the glass walls shut and you can still dine outside, protected from any weather, any time of the year.

Whether you want to entertain in the garden, relax in shade by the pool or enjoy al fresco dining the latest innovation in Pergola design is the ideal choice.

With crisp clean lines, louvred moving blades that close weathertight, frameless glass walls that slide shut in inclement weather, built-in lighting, and audio they are a comfortable versatile space, whatever your entertainment plans.

A Canopy Pergola
allows you to open your
roof to the sky

GLASS BOX EXTENSIONS

Perfectly proportioned, with a sleek refined aesthetic, the very best in contemporary flat roof extensions.

Structurally solid, and highly insulated with an inbuilt steel framework.

Options for floor to sky glass, slim frame sliding glass walls, open corners. And factory made for accuracy, and a quick, minimal fuss installation.

As functional as it is decorative, a Glass Box Extension creates a space where your imagination can run free and lifestyle choices can be fulfilled, be it a new pool room, a new kitchen overlooking the garden or a courtyard dining space.

GLASS HOUSE
ARCHITECTURE
TRADITIONAL
DESIGNS

In this flagship project with many technical considerations, careful planning and construction created a true architectural masterpiece

TRADITIONAL ORANGERIES

"A Glass House Architecture Orangery is an enduring tribute to its owner's good taste, uncompromising standards, and zest for life. We are committed to excellence."

Bespoke Traditional Architecture

Renowned for our graceful, glazed buildings, Glass House Architecture is one of Britain's leading conservatory and orangery designers and makers, with an excellent reputation for working on heritage projects and many other listed and period buildings.

There is art in creating the perfect orangery – ensuring that the period style is correct to match your home, that the height and proportion of pilasters, windows and doors is balanced, and details are pronounced yet not overbearing

All this whilst creating a flexible and inviting interior space, designed to meet your needs as a comfortable living space, formal dining room or as a garden room. Creating perfect synergy between the outside world and your living area.

PERIOD CONSERVATORIES

The Detail is in our Attention

With our heritage dating back to the 1980s, and an enviable reputation for designing the unique or impossible our traditional design and established craft values are allied to contemporary demands for comfort and efficient function in the creation of Britain's finest conservatories and garden rooms.

The traditional conservatory has functional origins but today they maximise the space available for a comfortable modern lifestyle, making the perfect hub for family life as well as an inviting room for entertaining friends.

As functional as it is decorative a period conservatory beautifully complements your home and creates a space where your imagination can run free and lifestyle choices can be fulfilled.

Exceptional design & manufacture

Never has architectural style and design harmonised so seamlessly with quality engineering, decor, and customer service.

With countless tailored solutions to fit your personal specifications, Glass House Architecture provides you with the professional expertise create a special space within your home.

The Quest for Excellence

Life under glass brings light, colour, and flexibility into your home; be it a garden room, a lounge, a dining room, or a study, the options are endless.

Create a highly usable space tailored entirely to your individual requirements - a place that reflects your personal expression and style.

Glass House Architecture offers a complete 'turnkey' service, including Winter Gardens, Atria, bi-folding doors, super-size sliding doors, windows, and statement front doors.

Complete your look with a fabulous kitchen, stylish modern furniture, awnings, blinds, and stone flooring.

Recognising that clients should only have the finest service, products and finishes, our team has spent years forging working relationships with world leaders and innovators in glass and aluminium systems and some of the interior design industry's leading brands and suppliers.

Design. Build. Create.

Glass House Architecture are proud of creating out of the ordinary and innovative living spaces.
